

General handling, storage and safety guidance applicable to AISL's plant-nutrition and bio-stimulant range. Product-specific SDS sheets are issued with bulk orders on request.

Product Identification

• Chelated micronutrients, humic/fulvic acid blends, seaweed extracts, calcium/boron correctors and microbial soil products — see Product Catalogue for full list.

Handling & Storage

- Store in original, closed containers in a cool, dry, ventilated area away from sunlight.
- Keep out of reach of children; most products are non-flammable.
- Jar-test before mixing concentrates with strongly acidic/alkaline chemicals.

Personal Protective Equipment

- Wear gloves and eye protection when mixing/loading concentrates.
- Wash hands and exposed skin after handling, before eating or smoking.
- Use a dust mask with powdered/granular products (e.g. Micro Chel, Exel Leaf).

First Aid

- Skin/eye contact: rinse with plenty of clean water for several minutes.
- Ingestion: rinse mouth with water; seek medical advice and bring the product label.

Spillage & Disposal

- Contain and absorb spills with inert material; dispose per local regulations.
- Do not discharge concentrate into drains or waterways.
- Rinse and dispose of / recycle empty containers per local waste guidelines.

Product & Package Index

PRODUCT	PACKAGE SIZES	PHYSICAL FORM
Humi-Cal-FeK	5 kg	Powder/Granular
Ultra Power Gro	1 L & 20 L	Liquid
BorCaZink	20 L can	Liquid
